

Multi-Action Germicide—Multiple Benefits

Trust Stalosan F to lower mortality, reduce medication costs, and increase your profitability

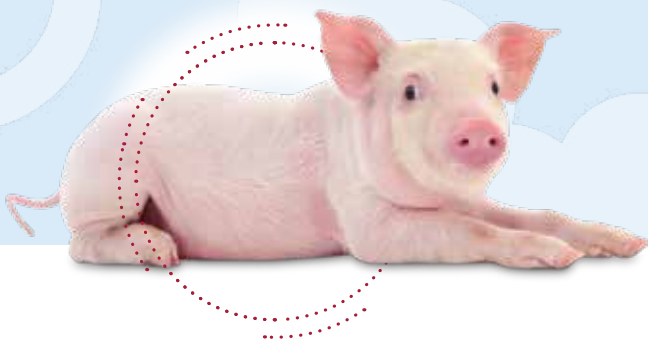

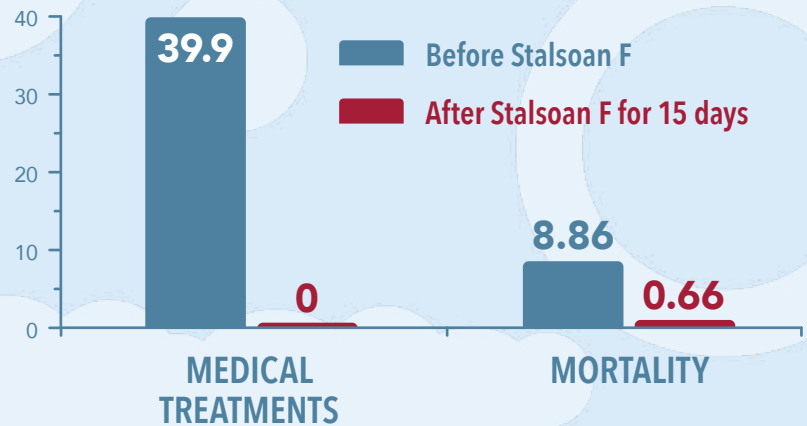

Use Stalosan F in your barn sanitation program to eliminate bacteria and viruses.

- Lowers the incidence of swine dysentery and other common diseases and infections
- Works as a vital ammonia reducer, absorbing moisture and improving air quality
- Application amount: 1 lb/100 ft², 50 g/m²

Stalosan F on swine farms reduces:

- Mortality
- Medication costs
- Incidence of disease

Stalosan F helps decrease mortality in piglets

Stalosan F provides piglet stress reduction at times when they are highly vulnerable to microbe attack, such as group forming and feed changes.

- Reduces diarrhea and pneumonia by over 50%, resulting in fewer antibiotic treatments
- Provides quick and effective drying when used directly on newborn piglets, protecting them against disease

Benefits of Stalosan F in the Nursery

Use Stalosan F to promote piglet growth from fostering to weaning.

For growers and fatteners, apply Stalosan F during critical periods of piglet stress to reduce pathogen pressure, scours, and morbidity.

And Stalosan F is excellent for use in transport trucks.

- After wet disinfectant dries, Stalosan F prevents bacterial growth and minimizes risk of disease challenges.

Benefits of Stalosan F in the Farrowing House

Stalosan F in the service area improves environmental conditions to help increase the insemination rate.

- When applied once per week to keep a dry environment, the powder is shown to decrease mortality, increase weight gain, improve FCR, and reduce both scours and pneumonia.

By using Stalosan F in your pig barn sanitation program, you will:

 REDUCE DISEASE	 IMPROVE AIR QUALITY	 PROVIDE A HEALTHIER ENVIRONMENT
Stalosan F eliminates bacteria and viruses, effectively lowering the incidence of swine dysentery and other common diseases and infections.	Stalosan F absorbs moisture and works as a vital ammonia reducer to improve air quality in swine production.	Stalosan F keeps your barn environment drier and more comfortable for your valued animals for increased profits.
